TridentCom 2009

The 5th International Conference on Testbeds and Research Infrastructures for the **Development of Networks & Communities** April 6~8, 2009, Washington D.C., USA

Sponsored By:

Organizing Committee

General Chair

Scott F. Midkiff, NSF & Virginia Tech

Program Committee Co-Chairs

Thomas Magedanz TU Berlin, Fokus Fraunhofer, Germany Shiwen Mao, Auburn Univ., USA

Conference Coordinator

Maria Morozova, ICST

Publicity Co-Chairs

Sami S. Al-Wakeel King Saud University, Saudi Arabia

David Browne, Telkom, South Africa

Jyh-Cheng Chen

National Tsing Hua University, Taiwan

Anastasius Gavras,

Eurescom, Germany

Edmundo Madeira, Unicomp, Brazil

Christian Esteve Rothenberg CpQD, Brazil

Nguyen Huu Thanh

Hanoi Univ. Technology, Vietnam

Vijay K. Varma, Telcordia, USA

Neco Ventura

University of Cape Town, South Africa

Min-You Wu

Shanghai Jiaotong Univ., China

Panel Chair

Stephen Wolff Cisco Systems, Inc., USA

Publications Chair

Arunita Jaekel University of Windsor, Canada

Local Arrangement Chair

Sastry Kompella

U.S. Naval Research Laboratory, USA

Information Systems Chair

Yihan Li, Auburn Univ., USA

Steering Committee

Imrich Chlamtac Create-Net, Univ. Trento, Italy Csaba A. Szabo **BUTE**, Hungary

Call for Participation

Tridentcom 2009 is a three-day international conference bringing together researchers from across the world to present and discuss the latest in results in networking test beds and research infrastructures.

Technically Co-sponsored by:

The conference consists of 12 technical sessions addressing::

- Next generation optical networks (2)
- Next generation wireless networks
- Protocol stacks and architectures
- Configurable platforms for testbeds (2)
- Testing and measurements (2)
- Mobile ad hoc networks and mesh networks
- P2P and grid systems
- NGNs, IMS, and quad play and
- Next Generation Services

In addition, Tridentcom 2009 features two keynote presentations (by Dr. Ty Znati from NSF and Dr. Max Lemke from European Commission), two interactive panels, two tutorials, and eleven demonstrations. The keynotes, panels, tutorials and demos are open to all attendees. Tridentcom 2009 is also the site of three focused workshops:

- WEEDEV 2009: The 2nd Workshop on Experimental Evaluation and Deployment **Experiences on Vehicular networks**
- ONIT 2009: The Open NGN and IMS Testbeds Workshop
- PCSI 2009: The First International Workshop on Pervasive Computing **Systems and Infrastructures**

The conference venue, Hyatt Fairfax, Virginia USA is at the nexus of the information technology and communications industry and U.S. government agencies. The conference venue is close to the Dulles International Airport (IAD) and the National Air and Space Museum Udvar-Hazy Center. Reagan National Airport (DCA) and downtown Washington, DC are accessible via the Metro and taxi or just taxi. Washington, DC features many museums, monuments, and other sites and is the home of the National Cherry Blossom Festival March 28-April 12, 2009.

Early bird registration deadline is March 6, 2009. Reduced registration fees are available for students and members of ICST, CREATE-NET, ACM and INRIA. Joint registration to the technical sessions and one or more related workshops is also possible for a reduced

Registration, venue, visa and additional information is available at: http://www.tridentcom.org/

Important Dates

Submission of camera-ready papers: Early bird registration deadline: Conference dates:

January 30, 2009 March 6, 2009 **April 6~8, 2009**
